

COLOUR CODED RECYCLING BINS

Bright and colourful range of recycling containers with optional lids and trolleys allowing colour-coded source separation of waste materials.

Two sizes are available, 60 litre and 90 litres.

With the use of lids, one colour of bin body (usually grey) can be used for different colours of lid. Alternatively, the entire bin and lid may be supplied in the same colour as shown above.

A wheel kit consisting of a base for the bin along with four casters allows easy movement.

Product	Capacity	Dimensions
OG60B	60 litres	555 x 280 x 590mm
OG90B	90 litres	510 x 485 x 600mm

Lids and base as optional extras. See price list for details.
