

SLIM JIM SYSTEM

Flexible recycling container system consisting of interchangeable bodies, colour-coded lids and trolleys.

Exceptional quality of design and manufacture means that this system is suitable for use in the smartest of offices. Different lids mean that the containers can be readily identified for the correct materials and when combined with the optional trolley, one or more containers can be moved around with ease.

All components are also fully compatible with the 87 litre Slim Jim Recycling Station. This allows two sizes of body to be used with the full range of lids and trolley.

SLIM JIM SYSTEM

Lids are available as shown:

- Paper slot lid: blue
- Can/bottle lid: brown / green
- General lid: yellow / grey

All components integrate with the larger 87 litre Slim Jim Recycling Station (shown in grey).

The grey swing lid shown will also fit onto the smaller 60 litre Slim Jim container.

Slim Jim bodies are available in blue or grey.

Product	Details	Dimensions
R3540	87 litre Slim Jim	508 x 279 x 762mm
R3541	60 litre Slim Jim	587 x 279 x 632mm
