

**SPRITE BINS**

A classic design and wide range of customisable options makes the Sprite Bin perfect in any environment, both indoors and out. Suitable for a variety of applications including recycling, confidential waste and residual litter collections.

Custom made in tough polythene, these containers can be modified to your specific needs. The standard container top can be altered with the addition of bespoke apertures which can be supplied fitted with rubber rosettes or brushes. Locks and ground fixing kits are available for improved security and metal and plastic liners are available to aid emptying and cleaning.

With more than 14 standard colours on offer, the container has a high quality finish and can be personalised with the addition of custom graphics.

This brightly coloured and durable container is the ideal solution for large communal areas.

Capacity (litres)	Diameter (mm)	Height (mm)
