secure containers

by STRAIGHT®

PERSONAL DOCUMENT CONTAINER

A unique confidential solution designed to be stored under the desk.

Tough moulded plastic casing.

Sturdy lid equipped with key operated lock.

Narrow tamper proof paper slot held in place with three metal teeth.

Small footprint and top access panel allows the unit to be stored and accessed in relatively small spaces, such as under the desk.

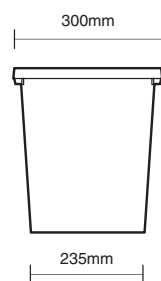

34 litre capacity

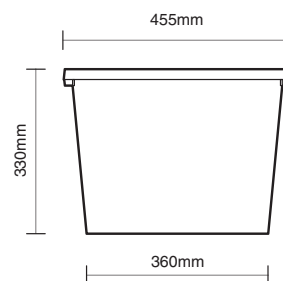

The Personal Document Container is ideal for keeping hidden away under the desk. It is also suited to central areas such as by photocopiers.

With a tough key lock and integral hinge system this unit is tamper resistant. The narrow paper slot on the top face prevents documents being removed when the container is locked.
