

LARGE WATER TANK

The Large 700 litre Water Tank has been designed to store valuable rainwater for use in the garden.

It is simple to install and maintain with handles for easy lifting when empty. The moulded through window and inset ribs keep the tank strong and robust.

The Large Water Tank is fitted with a tap which is the perfect height for filling a watering can and the integral hose connection enables the garden to be watered directly from the tank.

Supplied with a rain diverter kit and available in three colours; green, granite and sand, each Large Water Tank comes with a one year guarantee.

Capacity (litres)	Width (mm)	Depth (mm)	Height (mm)
