

Straight Product Guide

CORE PRODUCTS – will be included on all campaigns.

Blackwall Compost Converter 220 and 330 litres:

Market-leading blow moulded compost bin with windproof secure push-fit lid and removable side hatch. Guaranteed 15 years.

Made from 100% recycled post consumer HDPE, mostly collected from UK kerbside collections. UV stable.

The Compost Converter is the UK's biggest selling composter with more than 3 million unit sales to date and formed the main choice for the WRAP composting campaign.

Both sizes available in Black OR Green.

Capacity	Width (mm)	Height (mm)
220 litre	740	900
330 litre	800	1000

Base Plate available. Fits both sizes.

Kitchen Caddy

Features a wide landscape opening ensuring food waste goes into the caddy and not on the worktop.

The close-fitting lid contains moisture and odours within the caddy. A convenient carry handle allows the caddy to be taken to the Kerbside Caddy or home composting bin for simple waste disposal.

Capacity: 5 litre

Colour: Green

Caddy Liners

The liner is breathable meaning that the moisture content of the food waste decreases and in turn reduces the weight of the material for collection by as much as 30%. Liners will fully compost into water, carbon dioxide and a negligible quantity of biomass.

Compost-a-Bag® liners are both compostable and biodegradable and are accredited to EN13432.

All Purpose Activator

Dilute and add to the contents of a compost bin to accelerate the composting process.

This product is organic and non harmful to children or pets.

Size: 500ml

Compost Aerator

Allows the contents of a compost bin to be mixed and lifted with ease. Speeds up the composting process.

Made from recycled plastic.

Length 750mm

Compost Sieve

Compost when it comes out of a compost bin tends to have some large pieces of material that are best removed.

Our sieve combines the quality of steel with the utility of a plastic body.

Plastic moulded body with a tough galvanised steel diamond mesh moulded into the bottom. Mesh holes are 9 x 5mm.

Backyard Composting

Backyard Composting follows basic values, such as putting things where they belong and not making a mess. Composting at home reduces your personal volume of rubbish, conserves water, increases plant growth, replaces the need for toxic chemical fertilizers and pesticides, and is also fun. While you may not win an 'environmental hero of the year' award, your trees, earthworms, butterflies and other flora and fauna will be grateful for your composting achievements!

We offer an additional range of products which can be added to the campaign.
Please select any number of products from the following list of Optional Products.

OPTIONAL PRODUCTS

Please select any number of products from the following list

Flat Pack & Specialist Composters

Thermo King Composter 400, 600 & 900 litres:

Premium flat-packed range and moulded from a thermally insulating material. Recycled plastic is modified to produce a thicker a more insulating wall section. Easy assembly in seconds without the need for tools.

Available in green colour only – made from 100% recycled plastic, UV stabilised.

Twin windproof lids and two access hatches.

Capacity	Width (mm)	Depth (mm)	Height (mm)
400 litres	740	740	840
600 litres	800	800	1040
900 litres	1000	1000	1000

Base plate also available.

Universal base has snap off sections and fits all sizes.

Klip Wooden Composter

The Klip-Kit Wooden Composter is supplied flat packed. Simple clip together slats are easy to assemble requiring no screws, bolts or tools. They are made in Oxford by Pathway Workshop, a charity that works with disadvantaged people and those with learning difficulties.

Manufactured from recycled weatherproof timber sourced from sustainable forests.

Capacity	Width (mm)	Depth (mm)	Height (mm)
395 litres	880	880	700

Lid also available as an optional extra.

Wooden Modular Composter

Features sliding panels for easy access to compost and uses a solid wood design to prevent compost from drying out and breaking down unevenly.

Made from solid wood sourced from FSC sustainable forests and treated with non-toxic wood preservative.

Capacity	Width (mm)	Depth (mm)	Height (mm)
620 litres	910	910	750

Lid also available as an optional extra.

Compost Tumbler

The Compost Tumbler is ideal for rapid composting, especially for large quantities of grass cuttings. Rotating the Compost Tumbler weekly aerates the mixture and reduces the composting time to as little as 21 days.

Drum supported on a 5 piece galvanized steel and aluminium metal frame. Drum manufactured from HDPE 100% post consumer recycled plastic. UV stabilised.

Capacity	Diameter (mm)	Height (mm)
200 litres	690	1170

OPTIONAL PRODUCTS

Food Waste Composters & Wormeries

Can-O-Worms

Starting their work in a single tray, worms will eat scraps 24/7 as you gradually add tray-after-tray full of kitchen waste. They burrow through some tiny holes in each tray-base - leaving behind them that superb, rich, nutritious compost your garden will adore. By the time they reach the top section, your lower level will be ready for harvest. Also produces liquid feed fertiliser.

Supplied as a kit with all component parts included.

Capacity	width (mm)	Height (mm)
70 litres	500	730

Also available Can-O-Worms Basic Kit

Works as above but has one less tray and reduced number of worms.

Capacity	width (mm)	Height (mm)
45 litres	500	660

Bokashi Kitchen Composter

The Kitchen Waste Composter allows 100% home composting to be achieved by tackling the elements of organic waste that cannot be put into a traditional composter.

All food waste can now be turned into nutrient rich compost. This includes meat, fish and dairy products as well as cooked foods. The process does not produce smells or attract flies.

Made from 12% recycled plastic. Body and drain plate include EM ceramics.

Capacity	Width (mm)	Depth (mm)	Height (mm)
18 litres	320	260	370

Replacement Bokashi Bran also available in 1kg and 3kg packs.

OPTIONAL PRODUCTS

Water Butts

Rainsaver Water Butt Kit
