

Straight Manufacturing Ltd Environmental Policy

Straight Manufacturing Ltd is a manufacturer and supplier of proprietary and bought-in recycling and waste management products such as waterbutts, kerbside boxes and Jerry cans through blow moulding and injection moulding within the waste, garden and packaging sectors to the retail and trade markets.

As such, Straight Manufacturing Ltd and its top management are aware of and accept the environmental responsibilities placed upon it and them, in particular those that relate to the plastics manufacturing industry.

Straight Manufacturing Ltd recognises that its activities impact upon the environment both through its internal operations and through its influences and effects on the wider community. It acknowledges a responsibility for, and a commitment to, protection of the environment throughout all levels of the company.

Straight Manufacturing Ltd is committed to the continual improvement of its environmental performance and aims to operate an Environmental Management system aligned with ISO 14001 principles. This Environmental Management System will provide the framework for setting and reviewing environmental objectives and targets.

Straight Manufacturing Ltd is committed to complying with all legal and other environmental requirements, as well as with ISO 14001 standards. The prevention of pollution and commitment to minimising the environmental impact of business operations is highly engrained in the way Straight Ltd operate.

Straight Manufacturing Ltd will endeavour to promote employee engagement and participation by providing on-going environmental, information, instruction and training to all staff. Straight will also extend their environmental expectations to external parties such as suppliers and contractors.
